These are the sounds we have learnt so far.

You can help your children read words with these sounds in by using sound buttons.

blue

English

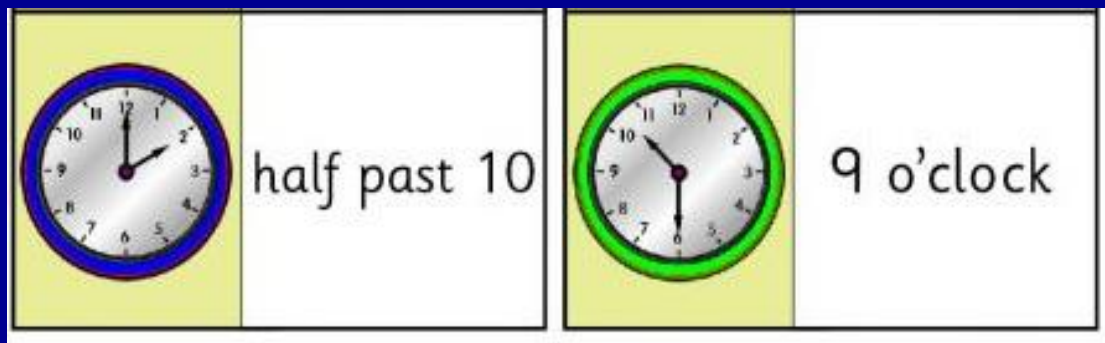

This week the children have been looking at the features of a comic strip and have been planning their own. We have been deciding on our own characters, setting and problem.

Maths

Time

We have been practising telling the time to o'clock and half past. We are getting better at explaining how we know it is a particular time using our star words 'hour hand' and 'minute hand'.

We have been thinking about whether certain times of the day are in the morning, afternoon or evening and what we might be doing at these times.

We have also been adding on an hour to o'clock and half past times.

Topic

Science - Learning how our bodies change as we get older. Using our baby photos, the children wrote descriptions about what they looked like then to now.

R.E - Thinking about ways in which Christians show their love to God.

PE - Practising using and following directional language.

Diary Dates

Do any parents or Grandparents have any toys that they wouldn't mind bringing into school, so that the children can learn about toys from the past?

Please can you make sure that your child has their PE kit in school.

16th and 18th January - Parent consultations

9th March - Mother's Day celebration

27th March - Class Celebration
